

Front End Coding Challenge

We need you to build a donation form for an upcoming event! Our goal is to raise \$5,000. We cannot accept donations of less than \$5 and we need to update the total donation dollars, progress bar, and number of donors with each donation.

\$1,250 still needed to fund this project

Only four days left to fund this project

Join the **11** other donors who have already supported this project.

\$ 50 **Give Now**

Notes

- Heading text is set in [Poppins](#) bold, all other text is set in either [IBM Plex Sans](#) regular or bold
- Colors are listed in our [color palette](#)

Rules

- You may use React, but you may not use Create React App, Gatsby, or the like.
- Your work must be available publicly via CodePen, GitHub Pages, Now, etc. We will not clone and run your code.
- Your source code must be available on Github, Gitlab, etc.

Bonus Points

- Use a CSS preprocessor
- Address web accessibility concerns
- Enhance the experience with success and error state
